## PEACE IN FAR EAST IS ALMOST ASSURED

### The World Pleased At the Appointment Of M. Witte.

STRONG ADVOCATE FOR PEACE

It is Now A Recognized Fact that the Peace Party Has the Ear of the Czar—Russian Securities Advance on Strength of Appointment.

St. Petersburg, July 15.—M. Witte's appointment as chief Russian peace plenipotentiary was announced today in the Official Messenger in the following words:

"Owing to the serious illness which overtook M. Muravieff on his arrival in St. Petersburg, which made it impossible for him to familiarize himself with, at such short notice, the considerable material connected with the negotiations, his majesty, the emperor has been pleased to appoint president of the committee of ministers, Witte, to the post of chief plenipotentiary. Spontaneously all parties recognize that M. Witte's selection makes for a successful termination of the peace negotiations. The mere fact that the emperor at last yielded to the pressure for M. Witte's appointment is accepted as being a complete assurance that his majesty is sincerely determined to end the conflict and make peace, if possible basis is obtainable.

Every influence which championed M. Witte was for peace while, on the contrary, those who opposed him were for a prolongation of the struggle.

France, through Ambassador Nelidoff, strongly urged him for the post, but the main credit for M. Witte's selection belongs to Foreign Minister Lamsdorff, who never ceased to press for his selection. Count Lamsdorff and M. Witte are now in close alliance."

M. Witte had a prolonged audience with the emperor at Peterhoff this afternoon at which the whole subject of the peace negotiations was gone over in detail. The difficulties of the situation was freely discussed and indications were given that his majesty is more apt personally to govern M. Witte's course than the formal instructions which have been given him.

M. Witte will leave St. Petersburg next Wednesday for Paris, sailing as previously announced from Cherbourg on July 26 on the North German Lloyd steamer Kaiser Wilhelm der Grosse. Mme. Witte will accompany her husband as far as Paris, where she will remain for the present, though she may possibly join M. Witte later in the United States.

M. Witte's personal solicitation M. Korotovits, one of the ablest young diplomats who formerly was secretary of the Russian legation at Paris, will be attached to the Russian mission.

Stocks rose on the boerse on the improvement of the Russian securies abroad, due to M. Witte's appointment as chief peace plenipotentiary. According to information received here, Japan intends to claim the island of Sakhalin by right of conquest and its formal cession will be one of her unalterable demands.

The government has issued another 25,000,000 in paper roubles, the whole outstanding paper obligations being $495,000,000 against $547,000,000 in gold.

The boerse Gazette regards the latest issue as being a forced issue to protect the gold reserve.

### GOVERNMENT GETS MONEY.

Secretary Shaw Calls in $11,000,000 of Uncle Sam's Money.

Washington, July 15.—In the opinion of officials of the treasury department the amount of money in actual circulation will not be decreased materially by the eleven millions to be paid under Secretary Shaw's call, which matures tomorrow.

It is believed that 75 per cent, if not practically all, of the sum derived from this, the second installment of the call, will at once go into national bank circulation. That was true of the sum paid into the treasury by national banks under the first installment which matured in January. The secretary's call was for 20 per cent of the government deposits. It was divided into two parts maturing Jan. 1 and July 1. The time for the payment of the second instalment was extended to July 15, but the full amount cannot be received from the subtreasuries before Tuesday or Wednesday of next week. The first division of the call yielded about $13,500,000 and later about $4,500,000 were paid in by banks which anticipated the second instalment. The total call amounts to about $29,000,000 leaving a balance of about $11,000,000 due under the division maturing tomorrow.

As the report specified no names, all attendants felt that it reflected on them. The report is said to have been founded on testimony given by Yarbrough. The superintendent of the asylum was absent when the petition was drawn up. When it was presented on his return, Superintendent Whitner asked for 24 hours in which to consider it. The operation was made necessary by a mishap several years ago when General Wood received a severe blow on the head by accident. A swelling developed, but surgeons were soon able to determine that it was not of cancerous growth and not in the least likely to have any permanent ill effects.

Many inquiries, it is said, have come in from Washington since the operation to all of which there has been returned the answer that everything was progressing satisfactorily.

New York, July 15.—Thirteen deaths attributed to the hot weather were recorded in New York Thursday. ## ALACHUA COUNTY

### Should Make a Good Display at the Florida State Fair.

The Mid-Winter Fair, to be held at Tampa, is a State institution and every person interested in the advancement of the State should take an active part, as far as possible, in the exhibition. Every county has something to show, and the success of the fair depends on the enterprise of the people, be it county or State.

The manufactures, the products of the soil, all go to show what can be found in every county. When all are placed on exhibition they do much to attract people to the several localities.

The Board of Directors of the Florida State Fair Association have elected Jesse E. Burtz, city editor of The Sun, as one of the vice-presidents, and he would be pleased to hear from anyone who contemplates having any articles for exhibition. His territory will be Alachua county and he will confer with the County Commissioners and leading citizens at an early day and ascertain what the county will do. A fair appropriation will no doubt be made.

Individuals are requested to not stand back and wait for some one else to take the lead. It is a fair for Florida, and it is in the power of the people to make it a big thing. If you want information, address Jesse E. Burtz, Gainesville, Fla.

## WON WITH A REVOLVER.

### An Incident of the Gambling Halls at Monte Carlo.

Much excitement was caused a number of years ago at the public gambling establishment at Monte Carlo by an elderly man who was said to be an American named Captain Clyde. Having lost $6,000 at the tables, he questioned the fairness of the play and abused the croupiers, whereupon orders were given to debar him from playing again. When he returned on the following day the doorkeeper attempted to prevent his entrance, but he drew a revolver, walked in and took his seat at one of the tables and began to play. One of the inspectors who attempted to eject him was knocked down, and when a ring of the attendants was formed around the captain with the object of hustling him out he retreated in a corner, drew his revolver once more and after denouncing the managers as thieves and swindlers declared that he would not leave the place until the $6,000 he had lost on the previous day was restored. After some hesitation the managers, seeing that he was determined and finding their employees unwilling to expose themselves to the fire of his revolver, complied with the demand.

### Baseball Players and Foot Racers!

Louis J. Kruger, ex-champion long distance foot racer of Germany and Holland, writes Oct. 27, 1901: "During my training of eight weeks' foot races at Salt Lake City, in April last, I used Ballard's Snow Liniment to my greatest satisfaction. Therefore, I highly recommend Snow Liniment to all who are troubled with sprains, bruises or rheumatism." 25c, 50c and [illegible]

### Dispute Over Boundary Line.

New York, July 15.—The Journal do Brazil, according to a Rio de Janeiro dispatch to the Herald, asserts that there are serious differences between Brazil and Bolivia, about the demarkation of the boundary line. The commissioners ignore the whereabouts of some points mentioned in the Petropolis treaty. Senor Mendioris, a deputy, has introduced a bill offering a prize of $2,000 to the discoverer of an efficacious remedy for tuberculosis.

### Husband and Wife Drown.

Ogdensburg, N. Y., July 15.—Mr. and Mrs. Kerouac, of St. Herbert, will have only been married a year, have been drowned together in Lac Grand Fouche by the leaking and subsequent foundering of a boat in which they were rowing. Mrs. Dumont, a sister of Mrs. Kerouac, who accompanied them, was picked up alive after having been in the water for two or three hours.

### Italian Bank Cashier Arrested.

New York, July 15.—Henrico Cotti, for years cashier of the Edison company at Milan, Italy, is under arrest, charged with having embezzled $240, which he lost in speculation, says a dispatch from that city to the Herald. It is probable there will be other arrests. Shares of the Edison company fell on the bourse in consequence of the revelations.

### Acquitted of Bribery Charge

St. Louis, July 15—C. E. Aldrich, former member of the state senate who was acquitted at Troy Mo. yesterday on a charge of bribery returned today to St. Louis and preparations will be begun at once for his trial on the charge of perjury. Another charge of bribery in connection with the passage of the city lighting bill is also pending against him.

### Three Days He Didn't Like.

Lord Burleigh once said: "Though I think no day amiss to undertake any good enterprise or business in hand, yet have I observed three Mondays unlucky—the first Monday in April, when Cain was born and his brother Abel was slain; the second Monday in August, which day Sodom and Gomorrah were destroyed; the last Monday in December, which day Judas was born, who betrayed Christ."

### A Present.

Kifter—That's a nice umbrella you've got. Lifter—Yes; it was a present. Kifter—Indeed! Who gave it to you? Lifter—Nobody gave it to me, but it has an inscription on it showing that it was "presented to John F. Jones," whoever he is.

### An Unpleasant Reminder.

Mrs. Blank—That girl in the next flat keeps drumming the tune I was playing the night you proposed to me. Mr. Blank—I know it! As I've said fifty times before, I wish she'd move!—Detroit Free Press.

A man is called selfish not for pursuing his own good, but for neglecting his neighbor's.—Whately.

# COUNCIL WILL BUILD FINE FLINT STREETS

## City Council Ordered Complete Set of Machinery for That Purpose.

### WILL BEGIN WORK SOON

**Machinery is Expected Within Thirty Days, When Work Will Begin at Once. Surveyor Lyons Will Come Wednesday to Begin Survey for Sewerage.**

Another step toward the advancement of the city has been taken by the City Council, which body, in special session, has decided to purchase improved road and street building machinery, and a resolution to that effect has been passed, and the order will be placed for the machinery Monday.

The order will comprise one ten-ton Kelly combination roller and harrower, one No. 4 Champion crusher and one twenty-horse power electric motor, which will be used as power in place of steam.

The action of the council was taken by motion of Alderman Benson, who has always been an enthusiast on hard roads and streets. University street was constructed under the direction of Alderman Benson as chairman of the street committee several years ago, and it has stood well, requiring very little repair.

Chairman Taylor of the street committee, who is also an enthusiast on streets or anything else for the advancement of the city, stated Saturday that the machinery would be ordered at once, and that it should arrive in Gainesville within three weeks, when it will be placed immediately in position. Chairman Taylor will proceed at once to ask for bids for supplying flint rock, of which there is an abundance in this county within a few miles of the city, and the lowest and best bidder will be required to go to work at once in the matter of mining the material. By the time the machinery arrives several hundred tons will likely be ready for the crusher.

The first work laid out by Chairman Taylor will be the repairing of University street, which has not had attention for some time, after which he will begin the paving of West Liberty street from Fifth street to the University grounds. At a recent meeting the council passed a resolution ordering this thoroughfare widened from sixty to eighty feet, which will permit of a grass plot on either side. Mr. Taylor proposes to superintend this work himself, and will see that a thorough job is accomplished.

**The Material.**

In speaking of the material to be used in the construction of the streets, Chairman Taylor stated that it was the purpose of the city to use a layer of Alachua lime rock, five inches in thickness and well packed, which will be followed by a coating of three inches of No. 2 and No. 3 flint, finely ground and thoroughly packed. This composition was used by the United States government experts here, and has proved to be a most lasting material. The government constructed one block here which has given entire satisfaction, being as hard and firm as a brick pavement.

**The Sewerage Question.**

It will be remembered that at a recent special meeting of the council the proposition of W. W. Lyons for submitting plans and specifications for a sewerage system was accepted. Mr. Lyons is now engaged in constructing the sewerage system in Palatka, but writes Chairman Taylor that he will arrive in Gainesville Wednesday of the coming week for the purpose of beginning work.

With the contemplated city improvements now in hand, the elegant new University buildings to be established, and with other building, it is safe to say that Gainesville will be the busiest "little city" in the State for the next twelve months.

## McLENDON MADE MELONS.

### Shipped Thirty Cars From Ninety Acres, But Prices Were Poor.

W. T. McLendon of Alachua, one of the best known citizens in that section and probably the boss melon grower of the county, was among those who came to Gainesville on business Saturday.

Mr. McL[illegible] one of the clever- melons grow where only one grew before, with the result that he has produced probably a more prolific yield than any other man in Alachua county in proportion to the acreage planted.

This enterprising grower, full of hope that he would reap a good financial harvest this year, planted ninety acres of melons, from which he shipped thirty solid carloads. The prices were poor, which was due to the market, and not the quality of the fruit, for it was as fine and luscious as ever left the State; but the markets were glutted, and Mr. McLendon, like the gentleman from Binghamton, merely "paid the freight" in the majority of instances. However, he is not discouraged, and will plant another good crop next season.

## FACTS ABOUT TIME.

### How the Elusive Moments Have Been Viewed by Many Writers.

Time is hard to define. According to the best poets time has a heavy foot, a tooth, a forelock and breakable legs. It travels in divers paces; it ambles, trots, gallops, runs, rolls and stands still. It has whips; it crops roses. So far it seems like a horse. But it has a forefinger; also a reckless hand that writes wrinkles. This explodes the horse theory. Furthermore, time flies; hence "a bird of a time." Time is money. Being also a bird, time is a gold eagle, perhaps. Money is the root of all evil, and procrastination is the thief of time. Therefore procrastination is (1) a chicken thief, (2) a good thing.

The wickedness of time is beyond question. It is vindictive. "I wasted time," mourns King Richard, "and now doth time waste me." Time waits for no man. Time shall throw a dart at thee. Time robs us of our joys. Time will tell. Time is unthinking. Time presses its debtors. The time is out of joint, and well may it be, considering what a nuisance it is.

Time is a sea, a sandy beach, a bank, a shoal and an abysm. Also it is a whirligig, which seems odd when we recall that time is quiet as a nun. Time is good, bad, high, fine, rough, hot, Christmas, spring, waltz, common and lovely. Among good times may be mentioned quitting time and dinner time.—Newark News.

## HEAVY LOADS.

### Wonderful Carrying Power of the Hill Men of Tibet.

There are these famous weight carriers, known to all travelers, the Swiss mountain women, who walk up the steepest slopes with pack baskets of manure on their backs, and the porters of Constantinople, one of whom will hike a small piano on the curious saddle he wears. Perceval Landon, London Times correspondent in Tibet, speaks of hill country carrying that is most extraordinary.

On the Indian plains porters carry eighty to a hundred pounds, but hill men when working by the job take three times as much up frightfully bad paths. "I have myself seen a man carry into camp three telegraph poles on his back," writes Mr. Landon, "each weighing a trifle under ninety pounds. Farther east the tea porters of Sechuan are notorious, and loads of 350 pounds are not unknown. Setting aside the story of a Bhutia lady who carried a piano on her head up from the plains to Darjeeling as too well known to be likely to be exact, the record seems to be held by a certain Chinese cooly who undertook in his own time to transport a certain casting, needed for heavy machinery, inland to its owner. The casting weighed 570 pounds, and the carriage was slowly but successfully accomplished.

### Will Interest Many.

Every person should know that good health is impossible if the kidneys are deranged. Foley's Kidney Cure will cure kidney and bladder disease in every form, and will build up and strengthen these organs so they will perform their functions properly. No danger of Bright's disease or diabetes if Foley's Kidney Cure is taken in time. J. W McCollum & Co.

### The Hedgehog's Frown.

A hedgehog curls itself up by a frown—that is, by muscles like those which produce a frown—and it frowns severely or gently, according to circumstances. If it is poked hard it "sighs" itself tighter. If really hurt it frowns into a tight ball. The prickles can be erected in a measure, though as they point all ways this is not needed. They are as sharp as needles. We have only known one dog, a large black and white setter, which would deliberately bite a hedgehog till it killed it. But this dog was quite mad and shared some of the anaesthesia common to certain lunatics.—London Spectator.

### Books in the Home.

Some curious remarks are sometimes overheard at the counters of public libraries. At Hull a young girl was heard to whisper to her sister: "Don't get one of Miss Braddon's books. Ma will want to read it, and we shall have to wash up the supper things." In another case a boy went boldly up to the counter and said: "A book, please. Anything will do; it's for father."—Westminster Gazette.

### He Was Home Early.

Mr. Newed (two weeks after marriage)—Don't sit up for me tonight, dear, as I may be detained downtown until after midnight. Mrs. Newed—Oh, that'll be all right. By the way, in case you should return before I do, kindly leave the gas burning in the hall, will you?

# DRUGGISTS MUST HAVE SHORT HOURS

## Ministerial Association Anxious That They Should Close

### AND ATTEND CHURCH SERVICES

**Druggists Agreed to Close Certain Hours During Day if Physicians Would Consent, When Association Secured Approval of Doctors.**

The Ministerial Association of Gainesville, in compliance with their determination to assist the druggists of the city in securing shorter Sunday hours in which business is conducted, and that they might be enabled to attend Divine worship, consulted with the various druggists, arranged a schedule of hours, and then presented to the practicing poysicians an agreement to comply with these hours so far as possible, which was cheerfully signed by nearly everyone. The following is a copy:

"We, the undersigned practicing physicians of the city of Gainesville, Fla., for the purpose of furthering the church work in this city, and to permit the druggists to attend Divine worship, do agree to so arrange our practice on Sundays (except in unusual cases) as to have our prescriptions and wants supplied during the following hours: From 7 to 10:30 a. m., 12 to 1 p. m., and 7 to 8 o'clock in the evenings.

### SENT UP FOR LARCENY.

**Will Jenkins Broke Into Another Man's Trunk and Must Pay Penalty.**

Because Will Jenkins desired to wear clothes better than he could afford to buy for himself, he forced an entrance into the wardrobe of his former friend, Oscar Walker, at Archer, and took therefrom certain articles of clothing, including trousers, coats and vests, as he thought would best become him, and proceeded to make away with them. Oscar did not appreciate this state of affairs, however, for when he saw that his best Sunday clothes were gone he began to make a "kick," and made complaint against the man whom he declared he had befriended when he was in hard luck by buying him cake, pie, etc., to appease his hunger.

Jenkins was arrested and arraigned before Justice Chamblin, Archer, when he was sentenced to give up the clothes and pay a fine of $25 and costs, or spend three months in the county gang. Having failed to respond to the financial requirement, the prisoner was brought to this city Saturday by Deputy Sheriff Curl, and will be compelled to spend the term in prison.

Jenkin's breath came in long "pants" when he heard the decision of the "coat" in the matter, but he declared he could not in-"vest" the amount of the fine, so he decided to "butt-on."

### Feel Impending Doom.

The feeling of impending doom in the minds of many victims of Bright's disease and diabetes has been changed to thankfulness by the benefit derived from taking Foley's Kidney Cure. It will cure incipient Bright's disease and diabetes and even in the worst cases gives comfort and relief. Slight disorders are cured in a few days. "I had diabetes in its worst form," writes Marion Lee of Dunreath, Ind. "I tried eight physicians without relief. Only three bottles of Foley's Kidney Cure made me a well man." J. W. McCollum & Co.

### Attention, Voters.

We wish to inform the patrons of The Sun that no votes are allowed in the Library contest on money paid for advertising in The Sun. Only those who pay the sum of $1.25 or over on subscriptions to The Daily Sun or those who pay cash for job printing will be allowed to vote.

### AN IMPORTANT DEAL.

**Blanding & Colson Sold a Valuable Building Lot to J. R. Fowler.**

The fact that the University of Florida will be located here seems to have infused new life and vigor into the city already, and even before the board of surveyors came to begin the work of laying off the elegant grounds, letters have been pouring in to the real estate firms and others from every section of the country inquiring as to the probabilities of purchasing property, the cost of lots, of buildings, etc.

One of the most important real estate deals consummated in this city since the University was ordered established here, was a valuable building lot on the corner of Alachua and Palmetto avenues, East Gainesville, which was sold Friday by Blanding & Colson to J. R. Fowler, a progressive lumber manufacturer of Lennon, Levy county.

This lot is 100x140 and is in close proximity to the National Odd Fellows' Home. So soon as Mr. Fowler learned of the location of the University in Gainesville, he came to the city for the purpose of purchasing property with a view of making his home here, with the result that he was early and was fortunate enough to secure one of the most desirable pieces on the market.

Mr. Fowler expects to begin at once the erection of a fine home on the property and when completed will move his family here. He will be gladly welcomed by the people of Gainesville, with the hope that they will be well pleased.

### Indigestion,

With its companions, heartburn flatulence, torpidity of the liver, constipation, palpitation of the heart, poor blood, headache and other nervous symptoms, sallow skin, foul tongue, offensive breath and a legion of other ailments, is at once the most widespread and destructive malady among the American people. The Herbine treatment will cure all these troubles. 50c bottle. Sold by W. M. Johnson.

### Fishing Party Returns.

The fishing party, comprising E. A. O'Neill, "chairman," W. S. McDowell, E. K. Fagan and J. H. Truby, have returned from Cedar Key and the Gulf Coast, where they have enjoyed themselves and "got fat" from eating fish and clams for the past ten days.

The party spent all the time in camp life on the various keys in the vicinity of Cedar Key and report fine luck fishing. Mr. Fagan, however, carried off the honors during the trip, having caught with hook and line a thirty-five pound redfish. The fish afforded lots of sport, and Mr. O'Neill states that it required forty-seven minutes to land it.

Meridian, Miss., July 15.— A sensation was caused in the circuit court this afternoon when the grand jury reported true bills against the sheriff's office and the entire police force of the city, charging violations of a statute requiring such officers to give information to the grand jury of any infractions of the law of which they might have knowledge. The details of the indictments have not been made public.

Wright has surrendered.

## WHAT THEY THINK.

It has now got to the stage—and very properly, too—where the merchant who does not think it worth while to advertise his goods in the newspaper is regarded by the public as not having anything worth advertising. At any rate the merchants who advertise in The Journal are the ones with whom the buying public does its business.—Pensacola Journal.

## ALWAYS WALKED.

A Russian conductor recently bit his tongue in two. He must have been trying to call the names of some of the towns that his train went through.—Atlanta Journal.

The Journal man evidently never rode on the cars. A conductor don't call the names of towns his train passes through. Only the ones where the train stops.

There is no denying the fact that the State institution at Chattahoochee needs a thorough investigation. The men and women about such places should be the best that can be secured, and it should also be borne in mind that their duties are very trying. But the superintendent should be a man and no politician or demagogue.

The latest reports are not sure as to whether dynamite or nitro-glycerine is the favorite explosive that will be used to blow up the Czar. Whichever is used will give the administration an upward tendency.

The strawberry growers of North Carolina will sue the Atlantic Coast Line for upwards of $100,000 for damages to crops in not getting their berries through on schedule time.

Ever since Gen. Stoessel surrendered Port Arthur the Russians have been looking up evidence to have him shot or otherwise punished. They think they have him now.

There is no discount on Florida. Her resources are not tourists as a whole. There is room for business here, but it will be "standing room only" if the pace keeps up.

## PRESIDENT SLEDD.

There is an old saying among sailors that seldom fails to prove true, that "you can always tell a craft by the cut of her jib." This may not always apply to men, but it is often the case that those who would impress the people frequently assume what they are not and inculcate a wrong idea.

President Sledd of the University of Florida made his first visit to Gainesville on Friday. The first impression one gets of this man of letters is that he is a shrewd business man. He makes no effort to convey the idea that he is anything but one of the people, although he has a reserve about him that one cannot help but admire.

He is a comparatively young man, enthusiastic on educational matters, full of ambition for the welfare of the University and a man who will put life into whatever he undertakes when sustained by a people who are ready to do their portion.

President Sledd will find the people of Gainesville in accord with educational advancement, and if we mistake not, the people will find him a progressive director of the affairs of the University, well fitted by education and experience to advance it along the highest plane of efficiency.

## MUST PAY FOR GROWTH.

The Index simply "rises to remark" that Gainesville was awarded the University in spite of the fact that the State of Florida has large investments in Lake City. This will be a matter that the taxpayers of Florida will have their attention called to at the proper time and those who are guilty must pay the penalty.—Lake City Index.

The only trouble in this case, when it comes to paying taxes, if there is any to pay on, the saint and the sinner will fare alike, and if they like it and want it, let 'em have it. It is the old story of the capital removal question several years ago. Oh, so many people said why remove the capital when a building already exists? Why tax us for what we already have? It went for Tallahassee and it didn't alter the situation. It was $75,000 for enlargement, now $25,000 for a governor's mansion, and more money for capitol room. You must pay for your growth, improvements and facilities. In this case it was only whether they should go to Lake City or Gainesville, and the board chose the latter.—Ocala Star.

## FROM THE STATE PRESS.

The State University has been located at Gainesville by the Board of Control and the Board of Education acting in conjunction. The vote stood four for Lake City and six for Gainesville. In the language of The White Springs Herald, "our sympathy goes to Lake City and congratulations to Gainesville." The News hopes that all bitter speech will be suppressed and forever forgotten, and that all portions of our great State will now rally to the support of the University—our University.—Cocoa and Rockledge News.

Gainesville has secured the State University and she is to be congratulated. She put up a good fight to secure the University and we trust that she will make equally as strenuous efforts to promote its every interest now that she has secured it. If the University makes a record equivalent to that made by the East Florida Seminary we will have one which everyone in the State can look upon with pride, and there will no longer be any necessity for our youth going out of the State to complete their education.—Dunnellon Advocate.

Gainesville never had as much fun in her life as when her committee got back from Tallahassee victorious in their effort to land the University for their town. It was Christmas and the Fourth of July combined, multiplied by x, and it was such honest and well-earned joy that even the defeated aspirants could not begrudge her the happiness she felt. She has fairly won the great prize after a great fight, and although our sympathies were with our neighbor, Lake City, now that the issue has been finally determined, we present to Gainesville our sincere congratulations accompanied by the renewed assurance of our distinguished consideration.—Live Oak Democrat.

## THE TREADMILL.

**Punishment Still in Vogue In Many English Prisons.**

The treadwheel is still in vogue at many English prisons. Within the walls of a little building, built of blue gray brick, standing somewhat apart from the main structure in a corner of the exercise ground and prison garden, on a chocolate colored door are painted in white letters the two words, "Wheel house." As the door opens the dull, grinding sound that we heard outside grows a little louder and clearer. The door closes behind us with the inevitable clash and click of the returning bolt. The house is an apartment some thirty feet long and fifteen feet wide. On the left hand side are the wheels, four of them, in two tiers, divided by a gallery running the whole length of the house and communicating with the floor by a staircase at the opposite end. On the right hand side there is another lower and shorter gallery, on which stands the warder in charge. The wheels are separated by a section of brick wall.

Each wheel is divided into compartments, cutting off each prisoner from the others. The object of this is to prevent the prisoners from seeing and hearing one another, although conversation in a low voice pitched in a different key from that of "the music of the wheel" is perfectly easy and intelligible.

## AFRICAN ELEPHANTS.

**They Are Shy of Travelers or Hunters In the Forests.**

"Elephants are but rarely seen in the forests of Africa, however numerous they may be," writes an old hunter of big game in the dark continent. "This is due to many causes. In the first place, they are naturally extremely shy animals and detest the neighborhood of man. In the second place, they are largely nocturnal feeders and rarely drink or bathe except at night. They often travel immense distances to and from the water and retire during the day to the remotest portions of the forest, where they doze away the long, hot hours under the shadiest trees that they can find. Lastly, their scent is extremely keen.

"This sense is so largely developed that they can recognize danger at a very long distance, and as soon as the alarm is given they move quickly but noiselessly away. As an elephant disturbed or frightened will frequently travel twenty or thirty miles without a stop, and as his pace under such circumstances is a good five miles an hour, it is easy to understand that travelers in the forest, although frequently coming upon absolutely fresh tracks, but seldom see the herd that has caused them."

## INSURANCE SYSTEMS.

**They Date Away Back to the Time of Claudius Caesar.**

The principle of combination for protective purposes has been traced to the time of King Alfred, and according to Francis' "Annals of Life Insurance," assurance on its broadest basis was practiced in the Saxon guilds.

Marine insurance dates back to the Emperor Claudius Caesar, who during a corn famine encouraged merchants to send ships for supplies by engaging to make good the value of any vessel lost in the public service. The Greeks had a somewhat similar practice, and so had the Jews, for when banished from France in the twelfth century they took out policies of insurance upon all their effects in transit.

The earliest English statute relating to insurance is dated 1601 and says, "It bathe bene tyme out of mynde an usage amongste merchantes both of this realm and of forraine nacyons, when they make any great adventure, to give some consideracion of money to other persons, to have assurance made of all their goodes, which is commonlie termed a policie of assurance."—Pearson's Weekly.

**Seventeenth Century Customs.**

In the seventeenth century Englishmen thought it injurious to sleep in rooms facing the sun, so most of the rooms faced north and east, opening off a passage or else out of each other. At the head of the stairs slept the master and his wife, and all the rooms tenanted by the rest of the household were accessible only through that. The daughters of the house and maidservants lay in rooms on one side, say the right, with the maids in those most distant; those of the men lay on the left, the sons of the house nearest the chamber of the master and the serving men farthest away.

**Cruel.**

Mabel (not in her first youth)—First of all he held my hands and told my fortune, and then, Evie, he gazed into my face ever so long and said he could read my thoughts! Wasn't that clever of him, dear? Evie—Oh, I suppose he read between the lines, darling.—Punch.

## THE DIAMOND TREE.

**A Plant Whereon It Is Alleged the Precious Stones Grow.**

"I haven't a diamond tree," said the jeweler. "Smith, over the way there, has one, though. At least, so I've been told."

"What is a diamond tree?"

"It is a tree where diamonds grow, of course."

"No; seriously. What is it?"

The jeweler smiled.

"Well," he said, "a diamond tree is a swindle, a very profitable swindle, and one that can be carried on forever with mighty little risk of detection. I'll explain it to you.

"I am a jeweler and you bring me a diamond ring for repairs. I take the diamond out of your ring and put back in its place a similar diamond that is a little, a very little, smaller. You naturally don't discover the trick that has been played on you.

"The same day a brooch is brought to me, and since the central stone of the brooch is a little larger than your diamond, I get rid of yours and keep the bigger gem. In this way, four or five times in one day, I make diamond exchanges, keeping always a better stone than I part with.

"On good diamond trees diamonds as small as pin heads have been known to grow to the size of peas in two days. A good tree, too, won't have only one diamond growing on it at a time. A dozen stones or more will be simultaneously increasing in size and value as the days pass."—Chicago Chronicle.

## MATCHING SHADES.

**Not to Purchase and Use the Goods, but to Dodge Them.**

Before trying to match the sample of silk the clerk asked:

"Is this a piece of something you want or something you don't want?"

"Something I want, of course," replied the customer, with asperity. "You don't suppose, do you, that I would go to all this trouble for a thing I can't use?"

"Some folk do," said the clerk. "I've met a number of them. The first woman I ever saw with that kind of bee in her bonnet had a square inch of blue silk that she wanted me to match. The scrap of silk was so small that it was hard to make comparisons, but after hauling down half the blue bolts on the shelves and running to the door several times to test the color in broad daylight I found the exact shade.

"'How many yards do you want, madam?' I asked.

"'Oh,' said the woman, 'I don't want any. Almost any other piece will do. That particular shade is very unbecoming. I just wanted to make sure that I don't get it, that's all.'"

The customer laughed. "What did you say?" she asked.

"I'd rather not tell," said the clerk. "Anyhow, since then I have been cautious. Before matching a sample now I inquire as politely as possible into a customer's intentions. If it's a case of 'don't want' I don't hurt myself matching the shade."—New York Press.

**One Dollar Saved Represents Ten Dollars Earned.**

The average man does not save to exceed ten per cent of his earnings. He must spend nine dollars in living expenses for every dollar saved. That being the case he cannot be too careful about unnecessary expenses. Very often a few cents properly invested, like buying seeds for his garden, will save several dollars' outlay later on. It is the same in buying Chamberlain's Colic, Cholera and Diarrhoea Remedy. It costs but a few cents, and a bottle of it in the house often saves a doctor's bill of several dollars. For sale by all druggists.

**Napoleon and Mothers.**

A charming story is told of Napoleon which illustrates well his reverence for mothers, whom he rightly regarded as the "makers of men." When his army lay at Boulogne an English sailor who had been taken prisoner tried to escape on a rude sort of skiff which he had contrived with bits of wood and the bark of trees. Hearing of the poor fellow's unsuccessful attempt, Napoleon had him brought into his presence, and he then inquired whether the man had really intended to try to cross the channel in such a frail little boat. The sailor replied that he had meant to try in order to see his mother, who was old and infirm. "You shall see her," said Napoleon, "and take her this money from me, for she must be a good mother to have such an affectionate son."

**The Diamond Cure.**

The latest news from Paris is that they have discovered a diamond cure for consumption. If you fear consumption or pneumonia, it will, however, be best for you to take that great remedy mentioned by W. T. McGee of Vanleer, Tenn. "I had a cough, for fourteen years. Nothing helped me until I took Dr. King's New Discovery for Consumption, Coughs and Colds which gave instant relief, and effected a permanent cure." Unequalled quick cure for throat and lung troubles. 50c and $1. All drug stores; price 50c and $1, guaranteed. Trial bottle free.

**In the Sickroom.**

In a sickroom open the door promptly without rattling the handle.

Walk in quietly, but do not take ostentatious care to glide in absolute silence. Don't pause and murmur inquiries to the nurse, but go straight to the bed and speak in a clearly audible, everyday tone to the patient.

Choose topics of interest that will entertain without being exciting, leaving a few new ideas with your invalid as food for pleasant reflection after your leave taking, and making only a passing reference to the present malady.

Look as fresh and pretty as the power in you lies, and thereby act as an unconscious tonic to your friend. Avoid any article of dress that jingles or rustles.

Having risen to say goodby, go instantly without lingering over last words or pouring forth exaggerated condolences and hopes.

**The House of Lords.**

The house of lords was composed chiefly of clerics until the time of Edward III. Thus in 1295 the peers were ninety spiritual and forty-nine lay members, including twenty archbishops and bishops, sixty-seven abbots and priors and three masters of orders. Many clerical dignitaries summoned did not attend at Westminster, refusing to recognize the authority of parliament over their own convocations of Canterbury and York. It was partly from this cause that the lords spiritual decreased in number until early in the reign of Edward III. the upper house consisted of eighty-six lay and only forty-five clerical peers, while during Elizabeth's parliament there were forty-three and twenty-six respectively.—London Standard.

**The Rate of Human Growth.**

"We grow at a uniform rate," said a physician. "There are rules of growth that unconsciously we all obey.

"Take the average man. He grows as follows: "First year, eight inches; second year, six inches; third year, five inches; fourth year, four inches; fifth year, four inches; sixth year, four inches. From the sixth on the growth is slower until the sixteenth year—it is only one and a half inches a year. The seventeenth year has a growth of two inches. The eighteenth year has a growth of one inch. At eighteen the average man is five feet eight inches high. Thereafter he grows no more."—Philadelphia Bulletin.

**Asthma Sufferers Should Know This.**

Foley's Honey and Tar has cured many cases of asthma that were considered hopeless. Mrs. Adolph Buesing, 701 West Third St., Davenport, Iowa, writes: "A severe cold contracted twelve years ago was neglected until it finally grew into asthma. The best medical skill available could not give me more than temporary relief. Foley's Honey and Tar was recommended and one fifty-cent bottle entirely cured me of asthma which had been growing on me for twelve years. If I had taken it at the start I would have been saved years of suffering." J. W. McCollum & Co.

### Beat Her Double.

"I know no[thing] like Chamberlain's Colic, Cholera and Diarrhoea Remedy," writes Mrs. Annie Hunter of Pittsburg, Pa., "for, four weeks, when I was sick with typhoid and kidney trouble I took the best doctor's medicine I could get, and when I got better, although I had [spent] a great deal of money with the best doctors I could get, I was worse than ever, double, and had to rest my hands on my knees when I walked. From this terrible affliction I was rescued by Chamberlain's Colic, Cholera and Diarrhoea Remedy and Electric Bitters, which restored my health and strength, and

## WANTED BIENNAL SESSIONS.

### Doings of the Georgia Legislators. New Tax Systems.

Atlanta, July 15.—Biennial sessions of the general assembly, the veto of the governor's mansion, a Georgia monument in the Vicksburg National park, to make drunkenness in public places a misdemeanor, the establishment of reformatories for juvenile criminals in each county in the state, and the establishment of the new county of Nichols, were among the important and interesting subjects dealt with in bills introduced in the house of representatives Thursday.

The biennial sessions bill has at last made its appearance in the house, being introduced by Mr. Lumpkin, of Sumter.

Mr. Lumpkin's bill proposes to repeal paragraph 289 of volume I of the code of 1895, and substitute for it the following:

"The general assembly shall meet on the fourth Wednesday in June, 1907, and biennially thereafter on the same day until the day shall be changed by law; the hour of meeting shall be 10 o'clock in the forenoon, and the place at the capitol."

There is a general feeling in favor of biennial sessions of the general assembly and it is believed this bill or one like it stands a good chance of becoming a law at this session.

### In the Senate.

"Tax reform in Georgia overshadows every other question of reform now being agitated before the people."

This statement was made by Senator Candler, of the thirty fourth district, in a lengthy but vigorous speech in the senate Thursday on the adoption of a resolution introduced by him Wednesday favoring a provision of the tax laws of Georgia.

Apparently the senate agreed with Mr. Candler, for by a unanimous vote his resolution providing for the appointment of a joint committee of two from the senate and four from the house for the purpose of considering the necessity of revision and amendment of the tax laws and system of the state was passed.

## CHOLERA INFANTUM.

### Child Not Expected to Live from One Hour to Another, But Cured by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Ruth, the little daughter of E. N. Dewey of Agnewville, Va., was seriously ill of cholera infantum last summer. "We gave her up and did not expect her to live from one hour to another," he says. "I happened to think of Chamberlain's Colic, Cholera and Diarrhoea Remedy and got a bottle of it from the store. In five hours I saw a change for the better. We kept on giving it and before she had taken the half of one small bottle she was well." This remedy is for sale by all druggists.

### Silk Thieves in Chicago.

Chicago, July 15.—That a band of of silk thieves, whose operations have resulted in plunder valued at $25,000 are making Chicago their headquarters and that stolen silks are being systematically sold through a "fence" in this city, is the belief of the police. The burglaries believed to have been committed by the gang have occurred within a radius of 300 miles of Chicago, principally in Wisconsin, Illinois and Indiana. Telegrams from the police of many towns have been received telling of burglaries committed in the country stores and department stores of larger cities in which silks have been stolen.

### The Boss Worm Medicine.

He bought one bottle of White's Cream Vermifuge, and it brought up 110 worms from the child. It's the boss worm medicine in the world." White's Cream Vermifuge is also the children's tonic.
